**ENTREX CARBON MARKET  
JOINT VENTURE**

The Entrex Carbon Market was created through the execution of a Letter of Intent Agreement which created a joint venture between the Entrex Capital Market, LLC and Universal Solar Technology Corp (OTC:UNSS), a public company.

The mission of the joint venture is to bring capital and technology together using Entrex's proven IBM Hyperledger technology to bring safety, security and efficiency to the trading of environmental securities.

Press release available [click here](#).

**NET ZERO ANALYSIS**

Net Zero works together with Entrex to reduce carbon emissions through renewable energy market transformation.

Working with international offset verifiers and producers Net Zero Analysis helps entities gain access to the Entrex Carbon Market and assisting in professional origination; maximizing visibility and placement.

**CLEAN DEVELOPMENT  
MECHANISM**

The CDM allows emission reduction projects in developing countries to earn certified emission reduction (CER) credits, each equivalent to one tonne of CO2. These CERs can be traded and sold, and used by industrialized countries to meet a part of their designated emission reduction targets under the Kyoto Protocol.

The Mechanism stimulates provides buyers and sellers unique solutions to meet emission targets.

**CARBON OFFSET MARKET TO BUY, SELL AND TRADE.**

The Entrex Carbon Market was founded to apply a regulatory compliant trading methodology to environmental securities. Today we provide a global solution to buy, sell, trade and retire Carbon Offsets.

**BUYERS**

Buyers of Carbon Offsets often find it difficult and inefficient to buy, sell, trade and retire Carbon Offsets in a safe and secure environment. The Entrex Carbon Market has created a regulatory compliant trading platform bringing efficiency to those challenges. [click for our Trading Video](#)

**BROKERS**

Brokers can efficiently *originate* and *place* carbon offsets through a global, regulatory compliant platform similar to traditional global stock trading. Whether clients are buyers or sellers; brokers can now offer an efficient solution to access the global market.

Brokers supporting institutional buying clients can now offer a simple, effective and safe solution for their clients to access Carbon Offsets. Through regulated entities, Clients can efficiently access verified and validated Carbon Offsets – while brokers can rely on a compliant platform to execute trades.

**SELLERS**

The Entrex Carbon Market offers the creators and/or sellers of Carbon Offsets an efficient solution to access buyers and sellers through Entrex's global partners. Sellers can now not only offer their products globally but can efficiently access transparent current and historical pricing for Carbon Offsets.

Originating brokers and Carbon Offset Sellers can efficiently create Deal Boxes which show buyers all needed Project, Monitoring, Verification and Validation documentation allowing efficient trading of their securitized offsets.
